

Application

TECHNOL FOUR SEASONS ANTIFREEZE BLUE G11 is a long-lasting antifreeze concentrate with high purity monoethylene glycol-based corrosion activity, developed as a result of research to protect materials operating in corrosive environments.

Properties

- It is recommended to change the coolant every year
- Provides superior protection against corrosion
- Acid-neutralizing alkali from combustion gases
- Provides resistance to foam formation

Approvals

ASTM Standards
BS 6580

Specifications

Specifications	Unit	Test method	Results
Density at 15°C	kg/m ³	ASTM D1122	1.071
Freezing point, reduced by 50%	%	ASTM D1177	-40
Reserve alkalinity (pH=5.5)	%	GFC Pr L-110-03	3.5 mL HCl 0.1N

*The features mentioned above are average values obtained with some variability in production and do not constitute a specification
