

Application

TECHNOL FOUR SEASONS ANTIFREEZE GREEN G11 is a long-lasting antifreeze concentrate with high purity monoethylene glycol-based corrosion activity, developed as a result of research to protect materials operating in corrosive environments.

TECHNOL FOUR SEASONS ANTIFREEZE GREEN G11 is diluted in demineralized water (80°F) to create a permanent coolant that can be used throughout the year

Properties

- It is recommended to change the coolant every year
- Provides superior protection against corrosion
- Acid-neutralizing alkali from combustion gases
- Provides resistance to foam formation

Approvals

ASTM Standards
BS 6580

Specifications

| Specifications | Unit | Test method | Results |
|--------------------------------|-------------------|-----------------|-----------------|
| Density at 15°C | kg/m ³ | ASTM D1122 | 1.071 |
| Freezing point, reduced by 50% | % | ASTM D1177 | -37 |
| Reserve alkalinity (pH=5.5) | % | GFC Pr L-110-03 | 3.5 mL HCl 0.1N |
