## TECHNOL MOTOR FLUSH

Date of the previous version: 2016-10-28

## Section 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

### 1.1. Product identifier

Product name TECHNOL MOTOR FLUSH

Number
Substance/mixture

Mixture

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

### 1.3. Details of the supplier of the safety data sheet

TECHNOIL LLC
A. Racabli 33, Door 4 (Esra plaza)

Azerbaijan, Baku
Tel: +99412 4044044
E-mail Address: info@technol.az

## TECHNOL MOTOR FLUSH

## Section 2: HAZARDS IDENTIFICATION

### 2.1. Classification of the substance or mixture

## REGULATION (EC) No 1272/2008 ***

For the full text of the H-Statements mentioned in this Section, see Section 2.2.***
Classification
The product is not classified as dangerous according to Regulation (EC) No. 1272/2008***

### 2.2. Label elements

Labelled according to REGULATION (EC) No 1272/2008***

## Hazard Statements ***

None***

## Precautionary statements

None***

## Supplemental Hazard Statements

EUH210 - Safety data sheet available on request***
Contains Amines, C12-14-tert-alkyl. May produce an allergic reaction***

### 2.3. Other hazards

| Physical-Chemical Properties | Contaminated surfaces will be extremely slippery. |
| :--- | :--- |
| Environmental properties | Should not be released into the environment.*** |

## Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

### 3.1. Mixture

| Hazardous components *** |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |

## Additional information

Product containing mineral oil with less than 3\% DMSO extract as measured by IP 346.
For the full text of the H-Statements mentioned in this Section, see Section 16.

## Section 4: FIRST AID MEASURES

### 4.1. Description of first aid measures

| General advice | IN CASE OF SERIOUS OR PERSISTENT CONDITIONS, CALL A DOCTOR OR EMERGENCY MEDICAL CARE.*** |
| :---: | :---: |
| Eye contact | Rinse thoroughly with plenty of water, also under the eyelids.*** |
| Skin contact | Remove contaminated clothing and shoes. Wash off with soap and water. Wash contaminated clothing before reuse.*** |
| Inhalation | Move to fresh air. |
| Ingestion | Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Call a physician or poison control centre immediately.*** |

### 4.2. Most important symptoms and effects, both acute and delayed

| Eye contact | Not classified. |
| :--- | :--- |
| Skin contact | Not classified. May produce an allergic reaction. |
| Inhalation | Not classified. Inhalation of vapours in high concentration may cause irritation of respiratory <br> system. |
| Ingestion | Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and <br> diarrhoea. |

### 4.3. Indication of immediate medical attention and special treatment needed, if necessary

## Notes to physician <br> Treat symptomatically

## Section 5: FIRE-FIGHTING MEASURES

### 5.1. Extinguishing media

## Suitable extinguishing media

Carbon dioxide ( $\mathrm{CO}_{2}$ ). ABC powder. Foam. Water spray or fog.***

## TECHNOL MOTOR FLUSH

## Unsuitable Extinguishing Media

Do not use a solid water stream as it may scatter and spread fire.

### 5.2. Special hazards arising from the substance or mixture

Special hazard Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot. These may be highly dangerous if inhaled in confined spaces or at high concentration.

### 5.3. Precautions for fire-fighters

Special protective equipment for Wear self-contained breathing apparatus and protective suit. fire-fighters

Other information
Cool containers / tanks with water spray. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

## Section 6: ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

General Information
Do not touch or walk through spilled material. Contaminated surfaces will be extremely slippery. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition.***

### 6.2. Environmental precautions

General Information
Do not allow material to contaminate ground water system. Try to prevent the material from entering drains or water courses. Local authorities should be advised if significant spillages cannot be contained.***

### 6.3. Methods and materials for containment and cleaning up

Methods for cleaning up
Dam up. Contain spillage, and then collect with non-combustable absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.***

### 6.4. Reference to other sections

Personal protective equipment See Section 8 for more detail.
Waste treatment
See section 13

## Section 7: HANDLING AND STORAGE

### 7.1. Precautions for safe handling

When using, do not eat, drink or smoke. For personal protection see section 8 . Use only in well-ventilated areas. Do not breathe vapours or spray mist. Avoid contact with skin, eyes and clothing.***

## Technol

## TECHNOL MOTOR FLUSH

Prevention of fire and explosion

Hygiene measures

Take precautionary measures against static discharges. Ground/bond containers, tanks and transfer/receiving equipment.***

Ensure the application of strict rules of hygiene by the personnel exposed to the risk of contact with the product. Regular cleaning of equipment, work area and clothing is recommended. Wash hands before breaks and immediately after handling the product. Do not use abrasives, solvents or fuels. Do not dry hands with rags that have been contaminated with product. Do not put product contaminated rags into workwear pockets.**

### 7.2. Conditions for safe storage, including any incompatibilities

## Technical measures/Storage conditions

Keep away from food, drink and animal feedingstuffs. Keep in a bunded area. Keep container tightly closed. Preferably keep in the original container. Otherwise, reproduce all the statutory information from the labels onto the new container. Do not remove the hazard labels of the containers (even if they are empty). Design the installations in order to avoid accidental emissions of product (due to seal breakage, for example) onto hot casings or electrical contacts. Protect from frost, heat and sunlight. Protect from moisture.***

Strong oxidising agents.***

### 7.3. Specific use(s)

Specific use(s)
No information available.

## Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

### 8.1. Control parametres

## Exposure limits

Legend

Mineral oil mist:

### 8.2. Exposure controls

## Occupational Exposure Controls

## Engineering measures

Personal protective equipment
General Information

Respiratory protection

Eye protection
Skin and body protection
Hand protection

Apply technical measures to comply with the occupational exposure limits. When working in confined spaces (tanks, containers, etc.), ensure that there is a supply of air suitable for breathing and wear the recommended equipment.

If the product is used in mixtures, it is recommended that you contact the appropriate protective equipment suppliers. These recommendations apply to the product as supplied.

When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Respirator with combination filter for vapour/particulate (EN 14387). Type A/P1. The use of breathing apparatus must comply strictly with the manufacturer's instructions and the regulations governing their choices and uses.

If splashes are likely to occur, wear:. Safety glasses with side-shields.
Wear suitable protective clothing. Protective shoes or boots. Long sleeved clothing.
Hydrocarbon-proof gloves: Nitrile rubber, Fluorinated rubber. In case of prolonged contact with the product, it is recommended to wear gloves complying with EN 420 and EN 374 standards, protecting at least for 480 minutes and having a thickness of $0,38 \mathrm{~mm}$ at least. These values are indicative only. The level of protection is provided by the material of the glove, its technical characteristics, its resistance to the chemicals to be handled, the appropriateness of its use and its replacement frequency.***

## Environmental exposure controls

General Information
The product should not be allowed to enter drains, water courses or the soil.

## Section 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1. Information on basic physical and chemical properties

## Section 10: STABILITY AND REACTIVITY

### 10.1. Reactivity

General Information No information available.***

### 10.2. Chemical stability

## Technol

## TECHNOL MOTOR FLUSH

Stability
Stable under recommended storage conditions.

### 10.3. Possibility of hazardous reactions

Hazardous reactions None under normal processing.

### 10.4. Conditions to Avoid

Conditions to Avoid
Heat (temperatures above flash point), sparks, ignition points, flames, static electricity.***

### 10.5. Incompatible materials

Materials to avoid Strong oxidising agents.***

### 10.6. Hazardous Decomposition Products

Hazardous Decomposition Products None under normal use. Incomplete combustion and thermolysis may produce gases of varying toxicity such as carbon monoxide, carbon dioxide, various hydrocarbons, aldehydes and soot.***

## Section 11: TOXICOLOGICAL INFORMATION

### 11.1. Information on toxicological effects

Acute toxicity Local effects Product Information

| Skin contact | . Not classified. May produce an allergic reaction. |
| :--- | :--- |
| Eye contact | . Not classified. |
| Inhalation | . Not classified. Inhalation of vapours in high concentration may cause irritation of <br> respiratory system. |
| Ingestion | . Not classified. Ingestion may cause gastrointestinal irritation, nausea, vomiting and <br> diarrhoea. |

## Acute toxicity - Component Information

| Chemical Name | LD50 Oral | LD50 Dermal | LC50 Inhalation |
| :---: | :---: | :---: | :---: |
| $2,6-$ di-tert-butylphenol*** | $>5000 \mathrm{mg} / \mathrm{kg}$ ( Rat ) | LD50 $>2000 \mathrm{mg} / \mathrm{kg}$ ( Rabbit ) |  |
| Amines, C12-14-tert-alkyl*** | LD50 $612 \mathrm{mg} / \mathrm{kg}$ (Rat) | LD50 $251 \mathrm{mg} / \mathrm{kg}$ (Rabbit) | LC50 (4h) $157 \mathrm{ppm}($ Rat -gas$)$ |
| Long chain alkenylamine ${ }^{* * *}$ | LD50 $1689 \mathrm{mg} / \mathrm{kg}$ (Rat) | LD50 $>2000 \mathrm{mg} / \mathrm{kg}$ (Rabbit) |  |

## Sensitisation

Sensitisation Not classified as a sensitizer. Contains senitizer(s). May produce an allergic reaction.

## Specific effects

## Technol

## TECHNOL MOTOR FLUSH

| Mutagenicity <br> Reproductive toxicity | This product is not classified as mutagenic. <br> This product does not present any known or suspected reproductive hazards. |
| :--- | :--- |
| Repeated Dose Toxicity | No information available. |
| Subchronic Toxicity |  |
| Target Organ Effects (STOT) | Characteristic skin lesions (oil blisters) may develop following prolonged and repeated <br> exposures (contact with contaminated clothing). |
| Other adverse effects |  |

## Section 12: ECOLOGICAL INFORMATION

### 12.1. Toxicity

Not classified. The supplier of one of the components contained within this formulation has indicated that they have data, which confirms that at the concentration used, no aquatic environmental hazard classification is required.***

## Acute aquatic toxicity - Product Information

No information available.***

## Acute aquatic toxicity - Component Information

### 12.4. Mobility in soil

| Soil | Given its physical and chemical characteristics, the product generally shows low soil <br> mobility.*** |
| :--- | :--- |
| Air | Loss by evaporation is limited..** |

### 12.5. Results of PBT and vPvB assessment

## PBT and vPvB assessment No information available.

### 12.6. Other adverse effects

General Information
No information available.***

## Section 13: DISPOSAL CONSIDERATIONS

### 13.1. Waste treatment methods

```
Waste from residues / unused products
```

## Contaminated packaging

EWC Waste Disposal No

Should not be released into the environment. Dispose of in accordance with the European Directives on waste and hazardous waste. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations.

Empty containers should be taken to an approved waste handling site for recycling or disposal.***

The following Waste Codes are only suggestions:. 1302 05. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

## Section 15: REGULATORY INFORMATION

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

88/379/EEC (Classification and Labelling):
Symbols:
Xn Harmful
R Phrases:
R22 Harmful if swallowed.
R36/38 Irritating to eyes and skin.
S Phrases:
S2 Keep out of reach of children.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S28 After contact with skin, wash immediately with plenty of... (to be specified by the manufacturer).
Special Provisions:
EC label.
Contents:
2,4,6-tris(dimethylaminomethyl)phenol
Where applicable, refer to the following regulatory provisions :
Directive 82/501/EEC ('Activities linked to risks of serious accidents') and subsequent amendments.
